

COMPUTATIONAL BIOLOGIST – GIGA/FARAH – ULIEGE

Systems biology applied to immunology

Research associate

Project FEDER *SYST-IMM* : *Systems biology applied to immunology: integration of multi-omics data to study responses to vaccines and respiratory pathogenic viruses.*

A consortium of immunology research groups of the FARAH and the GIGA at Liège University is looking for a **computational biologist at Master's level**. The consortium is involved in the study of lung immune responses in preclinical models of inflammatory diseases, exposure to viruses and/or environmental pollutants (1-5). The project aims to identify predictive signatures of the nature of the immune response to respiratory pathogens using multi-omics approaches in preclinical models. The multi-omics approaches will include integration of single-cell RNA sequencing data (10X Genomics, BD Rhapsody), ATAC-seq, spectral flow cytometry (Sony ID7000, FACSymphony A5SE), and spatial transcriptomics.

The Master's level researcher will be motivated by academic research, have minimal skills in bioinformatics, and a clear desire to develop his/her knowledge in the field of systems immunology in partnership with other computational biologists working on the same research project.

TASKS

- ▶ Analysis of single-cell sequencing data (10X Genomics, BD Rhapsody, Parse Biosciences, etc.);
- ▶ Analysis of spatial transcriptomics data.
- ▶ Integration of spectral flow cytometry data.
- ▶ Integration of spectral imaging data.
- ▶ Teamwork on joint projects, with direct links to the GIGA and FARAH laboratories.
- ▶ Participation in the planning of preclinical experiments prior to analysis.

PROFILE

- ▶ **Master in computational biology or related**
- ▶ Organizational skills and the ability to work independently.
- ▶ Proficiency in bioinformatics tools.
- ▶ Previous professional experience is a plus but not essential.
- ▶ A taste for teamwork.

HIRING CONDITIONS

- ▶ Full-time fixed-term contract for 1 year, renewable (up to 6 years in total)
- ▶ Basic gross monthly salary (scale 102S) **3.964,99 euros** (index update on 01/12/2023) with the possibility of recognition of seniority that can be valorized)
- ▶ Start date: immediately

PARTNERS OF THE PROJECT

- | | |
|----------------------|--------------------|
| ▶ Laurent Gillet | Didier Cataldo |
| ▶ Bénédicte Machiels | Thomas Marichal |
| ▶ Frédéric Baron | Benjamin G. Dewals |

COMPLEMENTARY INFORMATION

- ▶ For additional information on the nature of the tasks, applicants are invited to contact Laurent Gillet (L.Gillet@uliege.be). (☎ +3243664286)

HOW TO APPLY?

Applications (quoting the reference number), together with a CV and covering letter, should be sent to Christina Espert (christina.espert@uliege.be) by 9/08/2024.

Date of release : 19/07/2024
